scientific research programs. Proposals concerning the topics, persons and period of visit will be sent within a reasonable time in advance of the proposed visit.

#### ARTICLE 3

#### ACADEMIC RESEARCH PROJECTS AND TRAINING PROGRAMS

1. The Department will encourage students to join UNIBIOSYS for carrying out their Academic projects.
2. The participating students will continue as students for Degree of their parent institution (Dept.), and will be enrolled as affiliate (or non-award, non-Degree) student in the host institution (UNIBIOSYS).
3. For every student under course program the host institution will send academic project work reports of the students in the courses to the parent institution at the end of the tenure/term.
4. Each student will be send by the Department for the course program for a mutually approved duration of time.
5. The Department will nominate students for the academic program, and forward relevant data concerning the students to the host institution. The host institution will decide on the acceptability of the students nominated, and identify an appropriate supervisor. It is expected that the host institution will accept the nomination except in extra ordinary circumstances; and in such cases the parent institution will submit another application for consideration.
6. Every student under the program shall pursue their research program which is developed in consultation with the parent institution, and which is not in conflict with the regulations of the host institution. The appointed supervisor at the host institution will provide a report on the student to the parent institution on completion of his/her tenure/term. However, the two supervisors will jointly guide the students, until they complete their thesis and are awarded degree.
7. Project fees of students have to be paid to the host institution, before the start of training & academic project and no fee needs to be paid at the parent institution.
