FOURTH CYCLE NAAC ACCREDITATION 2021

CRITERION 1 Curricular Aspects

1.3 Curriculum Enrichment

1.3.1 – Institution Integrates Crosscutting Issues Relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, Human Values into the Curriculum.

Submitted to

THE NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, Human Values into the Curriculum

Sl. No	Program	Code	Name of the Course	G/ES/HV/PE	Description
1.	BSc Aquaculture	AQU01-AQU2CR T 0119	Aquatic Ecology	ES	This course enables the students to understand the dependence of all organisms on one another and how energy and matter flow within an aquatic ecosystem. Benefits and ecological functions and values of different systems existing in the environment are discussed. It enhances the ability to identify the major forms of life in the sea, describe the characteristics that distinguish these forms, and describe how these forms relate to each other ecologically. Various concepts and issues related to the management and development of fisheries in major water bodies are also included in the course syllabus.
2.	BSc Aquaculture	AQU01-AQU3CR T 0119	Inland and Marine Fisheries	ES	On completion of this paper the students will be able to expand their expertise in the wide areas related to inland and marine fisheries. They could easily describe and explain on different aspects about the current status, classification, fish and fishery resources and types of capture and culture practices employed in various Inland (cold water and riverine systems), reservoirs, estuaries as well as marine water bodies in India. Discuss and justify points on and various and problems encountered by these major water bodies and also disseminate on different schemes practiced for the development of the same. Demonstrate a sound understanding on various regulations and policies for assessment and conservation of fishery resources

3.	BSc Aquaculture	AQU01- AQU6CR T 0119	Aquaculture Management	ES	This course discuss and justify the use of various types of knowledge and sources of information applied in the decision-making processes of fisheries management. Inculcate the ability to evaluate and analyse the fisheries management systems including policies, legislation, strategies, plan of management and international agreements. It also define and use newly acquired terms and concepts related to fisheries and fisheries management
4.	BSc Aquaculture	AQU01- AQU6CR T 0319	Fisheries Economics and Extension	PF	The course offers awareness of operating different types of businesses towards establishing successful operations. Thorough understanding of the marketing concepts including market behaviour, primary and secondary marketing institutions and market regulations are clearly mentioned. Deals with the principles and functions of fisheries cooperatives and their role in uplifting the socio-economic conditions of fishermen. Give necessary knowledge on the relevance of extension education and confidence to disseminate the knowledge gathered for the benefit of the rural fisher folks.
5.	BSc Industrial Fisheries	AQU02- AQU3CR T 0119	Inland and Marine Fisheries	ES	On completion of this paper the students will be able to expand their expertise in the wide areas related to inland and marine fisheries. They could easily describe and explain on different aspects about the current status, classification, fish and fishery resources and types of capture and culture practices employed in various Inland (cold water and riverine systems), reservoirs, estuaries as well as marine water bodies in India. Discuss and justify points on and various and problems encountered by these major water bodies and also disseminate on different schemes practiced for the development of the same. Demonstrate a sound understanding on various regulations and policies for assessment and conservation of fishery resources

6.	BSc Industrial Fisheries	AQU02-AQU6CR T 0119	Fisheries Management	PE	<p>Helps in clear understanding of human resource management in the fisheries business environment. Adept in the management techniques and regulatory mechanisms in the processing sector. Provide thorough knowledge on the legislations relating to the management of the fisheries sector at the national level and state level along with thorough knowledge on the exploitation, management and conservation of varied fishery resources.</p> <p>Enable to expertise in organizational setup and state and central support to the processing industry. Ability to explain the concept of marketing management including distribution channels and price determinants. In depth understanding of the principles of cooperatives, types of cooperatives, issues and their role in the development of the fisheries sector. Ability to understand the concept of management of fishery resources at the application level.</p> <p>Explain and compare the different approaches, techniques and measures employed to manage fish stocks in sustainable manner.</p>
7.	BSc Industrial Fisheries	AQU02-AQU6CR T 0219	Fish Processing Technology and Quality Control	PE	<p>This course will acquaint students with basic principles of common seafood preservation techniques, non-thermal food processing techniques, quality assurance and export of fish and fishery products. It also helps to understand and develop skills on various seafood processing techniques and seafood export documentation. Enhance the capacity to analyse and interpret quality assurance and management of the system in seafood industries. Provide knowledge on advanced techniques of packaging and storing of seafood products.</p>

8.	BVoc Commercial Aquaculture	VIECMT0 120	Introductory Environmental Studies	ES	The course discuss the core concepts of ecological resources, their exploitation and application in environmental problem-solving, describes the relationship between human activity (natural resource exploitation, waste production, etc.) and the natural environment (biotic and abiotic) and formulate mitigation and remediation strategies to counteract these environmental impacts
9.	BVoc Commercial Aquaculture	VCA1CR T0120	Principles of Aquaculture and Aquatic Ecology	PE	The course helps to understand the fundamental principles of aquaculture ecological parameters and the importance of abiotic and biotic factors of aquatic ecosystems and their significance in sustainable aquaculture practices
10.	BVoc Commercial Aquaculture	VCA2CM T0120	Inland and Marine Fisheries	ES	The course create an awareness about the different aspects of status, classification, fish and fishery resources and types of capture and culture practices employed in various inland (cold water and riverine systems), reservoirs, estuaries as well as marine water bodies in India and their conservation
11.	BVoc Commercial Aquaculture	VCA2CR T0220	Freshwater Aquaculture and Hatchery Technology	PE	The course provides an in-depth knowledge of the different types of rearing processes, the different steps and procedures involved in the preparation and management of nursery and rearing systems of fish culture.
12.	BVoc Commercial Aquaculture	VCA3CM T0220	Environmental Science & Human Rights	HV	The course discusses various paradigms or world views, their implicit as well as explicit assumptions, values that shape the viewer's perception of environmental problems and identify, interpret and apply basic rights of environment system variables to assess socio-environmental conditions
13.	BVoc Commercial Aquaculture	VCA3CM T0320	Sustainable Aquaculture	ES	The course is designed to now the global advances in farming systems and environmental concerns, also suggest methods for region specific sustainable aquaculture practices applying the principles of responsible aquaculture

14.	BVoc Commercial Aquaculture	VCA4CR T0120	Fish Preservation and Processing Technology	PE	The course provides an awareness about the different fish processing methods, good hygienic practices and the production of value added products
15.	BVoc Commercial Aquaculture	VCA4CR T0220	Brackish water Aquaculture and Ornamental Fish Culture	PE	The course is designed to develop economically viable and environmentally sustainable culture technologies for finfish and shellfish in brackish water systems in different agro-ecological regions and give an in depth knowledge on the breeding, larval rearing and health management of freshwater ornamental fishes
16.	BVoc Commercial Aquaculture	VCA5CM T0220	Aquaculture Development Planning and Management	PE	The course gives knowledge in sustainable development of various levels of aquaculture planning, ability to prepare project and project appraisal applying relevant project management techniques
17.	BVoc Commercial Aquaculture	VCA5CR T0120	Value Added Fishery Products	PE	The course provides an idea about the principles and significance of value addition in the seafood industry, preparation of a number of value added products and by- products.
18.	BVoc Commercial Aquaculture	VCA5CM T0120	Business Entrepreneurship	PE	The course discusses the functional knowledge on the relevance, characteristics as well as competencies of entrepreneurs, able to develop and launch a business plan evaluating the resource, financial, technical, marketing and social aspects and lead the plan towards implementation and follow up
19.	BVoc Commercial Aquaculture	VCA6CR T0220	Fisheries Governance and Socio-economics	ES	The course provides an overall idea of the economic principles applicable in fisheries including the theories of production, demand, supply and return in terms of fishery industry
20.	BVoc Commercial Aquaculture	VCA6CR T0120	Aquaculture Engineering	PE	The course helps to get a knowledge on the technologies used in the aquaculture industry for the design of fish farms
21.	BVoc Commercial Aquaculture	VCA6CM T0220	Marketing Management		The course create an awareness on fundamental marketing concepts and knowledge to solve issues related to marketing of fishery products

22.	BVoc Fish Post Harvest Technology and Management	VIE1CMT0120	Introductory Environmental Studies	ES	This course describe about core concepts of ecological resources and exploitation and their application in environmental problem-solving .Inculcate the relationship between human activity (natural resource exploitation, waste production, etc.) and the natural environment (biotic and abiotic) and were able to discuss mitigation and remediation strategies to counteract these environmental impacts.
23.	BVoc Fish Post Harvest Technology and Management	FPM1CRT0120	Technology of Fish Freezing and Frozen Storage	PE	The course offers awareness about various techniques of freezing for fish and fishery products. Deals with the suitable packaging material for frozen products and to determine the quality of frozen products and thawed products. Clear understanding of different aspects of freezing and its physical, chemical and organoleptic and microbiological assessment during frozen storage.
24.	BVoc Fish Post Harvest Technology and Management	FPM3CMT0220	Environmental Science and Human Rights	HV	This course explain how perceptions of environmental problems, the problems themselves, and the proposed solutions are shaped by their historical, geographical, social, political, economic, and cultural contexts. It also discusses and justifies points on human rights and its importance.
25.	BVoc Fish Post Harvest Technology and Management	FPM4CRT0120	Design, Maintenance of Fish Processing Plants and Instrumentation	PE	The course offers hygienic standards in the factories of seafood processing sector. Students will able to get knowledge and skill in waste utilization in seafood processing. It also gives a clear understanding of design seafood processing plant in accordance with the production lines and ability to operate and maintain the machineries and equipment of fish processing plants.
26.	BVoc Fish Post Harvest Technology and Management	FPM5CMT0220	Fisheries Governance and Socio-economics	GE	The course offers clear understanding of fisheries administration and legislations in India. An in-depth knowledge on policies and regulations relating to aquaculture is also got. It also helps to understand and demonstrate core knowledge of microeconomics and macroeconomics, growth models and socio-economic aspects of fisheries development

27.	MSc Applied Fisheries and Aquaculture	AQU03-PAQ1CR T 0319	Biophysics, Instrumentation and Research Methodology	PE	Inculcate deep knowledge on scientific paper/article/report writing, data interpretation and analytical techniques. Expertize the handling and demonstrating different instruments and techniques like chromatography, microscopy, Electrophoresis, Spectroscopy, AAS, NMR, RIA, ELIZA, Flame photometry, Colorimetry, Centrifugation and museum specimen preparation etc. Helps to Observe and analyse various scientific aspects and theories related to biophysical fields of bioenergetics and radiation.
28.	MSc Applied Fisheries and Aquaculture	AQU03-PAQ2CR T 0119	Ecology of Aquatic Systems & Inland Aquaculture	ES	The course describes about how an aquatic ecosystem responds to the natural and anthropogenic impacts. Clear understanding of seasonal changes in fish population, characteristics of water, important aquaculture candidate species and their growing systems. Helps to develop sufficient knowledge in culture methodologies, site selection and common problems associated with each systems.
29.	BBA	BBA5CR T0219	Environment Science and Human Science	ES/HV	It includes natural resources and biodiversity and its conservation, green entrepreneurship and human rights
30.	BBM	BBM5CR T0319	Environmental Studies and Human Rights	ES / HV	This course gives an understanding of natural and social systems that can be applied to environmental and natural resource problem solving in a management context. It also will give an overview of the complexity of ecosystem and the relationship between human and environment
31.	BBM	BBM5CR T0119	Foundation of Individual Behaviour	HV	This course will assist the students to appreciate the interaction between an individual and the organisation. The course is vital to understand behavioural patterns of individuals in an organisation.
32.	BBM	BBM2CR T0219	Entrepreneurship Development	G	This course introduces students to the theory of entrepreneurship and its practical implementation. It focuses on different stages related to the entrepreneurial process, including business model innovation, monetization, small business management as well as strategies that improve performance of new business ventures

33.	BBM	BBM1CR T0219	Soft Skill Management	PE	This course are vital for effective leadership and performance management. This course will enhance the skills such active listening, communication and flexibility and to do technical abilities.
34.	BBM	BBM3CR T0319	Human Resource Management	HV	The course develops a critical understanding of the role and functions of the various human resource activities in an organisation, providing students with a comprehensive review of key HRM concepts, techniques and issues.
35.	MBA	PMB1CR T 0119	Principles and practices of management	PE,G, ES,HV	This subject will give students more insights on management principles that guide managers to take right decisions by keeping professional ethics and protecting human values.
36.	MBA	PMB1CR T 0219	Business Communication	PE,G, HV	The importance of being honest and impartial in communication and understanding the communication style differences between genders are part of this course. It also discusses the need for consistency and integrity for effective communication
37.	MBA	PMB1CR T 0419	Accounting for Management	PE	The Fair use of accounting techniques is discussed repeatedly in the subject
38.	MBA	PMB1CR T 0719	Environment Management	ES,HV	The 5 modules of the subject covers the environmental and Human related issues
39.	MBA	PMB2CR T 0319	Human Resources Management	PE,G	The subject helps the student to understand the importance of unbiased employer-employee relationships and, the green recruiting policies practiced in organisations,. The laws like maternity benefit act, equal compensation act and prevention and prohibition of sexual harassment also form part of the course
40.	MBA	PMB2CR T 0419	Operations Management	PE,G,E S,HV	The subject will help the students in understanding the optimum utilisation of resources to produce goods/services that satisfy the customers by protecting the human values and attaining environmental sustainability.
41.	MBA	PMB2CR T 0619	Management Information Systems and Cyber Security	PE	The last module of the subject covers the importance of security and ethics
42.	MBA	PMB2CR T 0719	Research Methodology	PE	Equipped students to do research activities without bias, maintaining professional ethics

43.	MBA	PMB3CR T 0119	Business Analytics	PE	Application areas of the course focuses on the importance of maintaining professional standards in handling the data
44.	MBA	PMF3CST 0119	Security Analysis and Portfolio Management	PE	The subject has references to the problems of insider trading
45.	MBA	PMM3CS T 0119	Integrated Marketing Communications	G,ES, HV	IMC equips students as how to craft advertisement campaigns based on consumer behaviour and gender. Enables the learner to tap new ideas in advertisement creation thrusting on Sustainability. Ethics in Advertising and advertising against, social marketing children throws light on the areas of Human values
46.	MBA	PMM3CS T 0219	Retail Business Management	PE,G, ES, HV	The subject provides necessary information on how retailers function and how the retail managers attain the goals and objectives efficiently and effectively in a professional environment.
47.	MBA	PMH3CS T 0119	Training and Development	PE,G, HV	The subject will help the students to understand the processes and methods through which they can apply to impart the knowledge, skills and techniques to improve performance of employees at present and in future.
48.	MBA	PMH3CS T 0219	Managing Organisational Change and Development	PE, HV	The subject discusses the ethical and human values need by a professional OD practitioner
49.	MBA	PMS3CST 0119	System Analysis and Design	PE	The subject covers the importance of Quality Assurance
50.	MBA	PMS3CST 0219	E-business	PE,ES, HV	The legal, ethical ,security and privacy issues related to doing e-business is discussed
51.	MBA	PMM4CS T 0119	Services Marketing	ES,HV	The quality standards and accreditations gives learners an overview as how to incorporate environment and sustainability while crafting marketing plan for services
52.	MBA	PMM4CS T 0219	Consumer Behaviour	PE.G	This subject will help the students to understand how and why consumers behave in a given way that enables marketers to design and implement better strategies ethically

53.	MBA	PMM4CS T 0319	Marketing Research	PE	The subject stresses the importance of maintaining research ethics
54.	MBA	PMH4CS T 0119	Compensation Management	PE,G, HV	The need for unbiased employer-employee relationship, gender discrimination in compensation and adherence to human values like trust, responsibility etc. are discussed
55.	MBA	PMH4CS T0219	Managing Interpersonal and Group Process	PE,G, HV	The subject enhances the students 'skill to perform the interpersonal and group processes ethically and by protecting human values.
56.	MBA	PMH4CS T0319	Human Resources Information System	ES, HV	The use of a paperless system will lead to a more sustainable environment. Security, confidentiality etc. are also ensured while developing an HRIS application
57.	MBA	PMS4CST 0319	E-Business Strategy	PE, HV	The strategies developed to support electronic business should uphold ethical and human values.
58.	MBA	PMO4CS T0119	Industrial Safety and Occupational Health (opted)	G	How to maintain safety standards for Gender.
59.	BSc Botany	BOT6CR T0119	Genetics, Plant Breeding and Horticulture	GS	Chromosomal basis of sex determination; sex linked inheritance Y-linked inheritance; sex limited and sex influenced inheritance.
60.	BSc Botany	BOT6CR T0219	Cell and Molecular Biology	GS	Helps in educating genetic basis of sex inheritance and helps in fighting social taboos .
61.	BSc Botany	BOT6CR T0219	Cell and Molecular Biology	GS	Numerical chromosomal abnormalities in man: Down's syndrome, Klinefelters syndrome, Turners syndrome – aims at creating awareness about the chromosomal anomalies and their genetic basis
62.	BSc Botany	BOT1CR T0119	Methodology of Science and Introduction to Botany.	PE	Laboratory Etiquette, Laboratory Hygiene, Ethics in science. -inculcates scientific etiquettes and concern for humans and environment
63.	MSc Botany	PBT3CRT 04119	Environmental Science	ES	Global environmental problems and climate change ,Environmental pollution-Create a awareness about the environmental issues and its solutions

64.	MSc Botany	PBT3CRT 04119	Environmental Science	HV	Biodiversity and its conservation instill the values of sustainability , respect and coexistence of every organism on earth
65.	MSc Botany	PBT1CRT 0319	Bryophytes, Pteridophytes	ES	Ecological and economic significance of Pteridophytes & Bryophytes. - create an awareness of the importance of these plant groups and the need for their conservation.
66.	MSc Botany	PBT2CRT 0219	Genetics and Plant Breeding	GS	Sex determination in animals and plants- Helps in educating genetic basis of sex inheritance and helps in fighting social taboos.
67.	BSc Chemistry & BSc Industrial Chemistry	CHE5CR T0117	Environmental Chemistry & Human Rights	ES & HV	This course contains the topics like Introduction to Environmental protection, pollution and Human Rights, Meaning, concept and development –History of Human Rights-Basic International Human Rights After this programme the students will be aware about their rights, when they are lived in a society. They will get a clear picture about environmental degradation and will be aware about the necessity of the protection of our environment.
68.	BSc Chemistry & BSc Industrial Chemistry	CHE1CR T0119	General and Analytical Chemistry	PE	The students will be able to identify and describe methods within the philosophy of science like observation, induction, scientific expectations and rationality. After this course the students will get a clear knowledge about plagiarism and professional ethics
69.	MSc Chemistry	PCH4CR T0219	Research Methodology of Chemistry	PE	The students will be able to identify and describe methods within the philosophy of science like observation, induction, scientific expectations and rationality. After this course the students will get a clear knowledge about plagiarism and professional ethics
70.	BCom Taxation / B.com Computer Applications	COM1CM T0119	Banking and Insurance	ES/ PE	Reforms in banking and IRDA rules contributes towards the environmental sustainability and professional ethics development of the students
71.	BCom Taxation / B.com Computer Applications	COM1CR T319	Business Regulatory Framework	PE	The course provides a comprehensive coverage about the rules and regulations concerned with Indian Contracts.

72.	BCom Taxation / B.Com Computer Applications	COM1CM T0119	Dimensions and Methodology of business studies	PE/ HV/ ES	Corporate governance, E- Commerce and business ethics topics discussed in the paper helps in the development of professional ethics, human values and environmental sustainability among students
73.	BCom Taxation / B.com Computer Applications	COM2CR T0319	Corporate Regulations and Administration	PE/ HV	The course gives an overview about the rules and regulations related to the functioning of companies.
74.	BCom Taxation / B.com Computer Applications	COM3CR T0419	Marketing Management	PE/ ES	The course familiarises the students about the concept of marketing. Green marketing improves the attitude of students towards the environment. The ethics to be followed while marketing is also discussed.
75.	BCom Taxation / B.com Computer Applications	COM2CR T0319	Business Management	PE	The course focuses on the concept of management and the ethics to be followed by managers.
76.	BCom Taxation / B.com Computer Applications	COM1CR T0219	Financial Accounting- I	PE	The accounting standards concept discussed in the paper provides an idea about the ethics to be followed in accounting
77.	BCom Taxation / B.com Computer Applications	COM2CR T0219	Financial Accounting- II	PE	The accounting standards concept discussed in the paper provides an idea about the ethics to be followed in accounting
78.	BCom Taxation / B.com Computer Applications	COM5CR T0219	Environmental management and human rights	G/PE/ HV	The course provides an understanding about the environment, human rights and women rights.
79.	BCom Taxation / BCom Computer Applications	COM5CR T0319	Financial Management	PE	The course delivers an understanding about the modes in which finance can be managed for improving the profitability and wealth of business.
80.	BCom Taxation	COM3CR T0519	Goods and Services Tax	PE	The course provides an exhaustive coverage about Goods and Services Tax

81.	BCom Taxation / B.com Computer Applications	COM3CR T0319	Financial markets and operations	PE	The course provides an insight into the ethics to be followed in the securities market
82.	BCom Taxation	COM4CR T0419	Financial Services	PE	The course provides an insight into the ethics to be followed in the securities market. It also provides awareness about various financial services.
83.	BCom Taxation / B.com Computer Applications	COM4CR T0319	Entrepreneurship Development and Project Management	PE/HV/ G/ES	The course provides a comprehensive coverage about entrepreneurship and project report preparation. It also provides an overview about women entrepreneurs. Green channel counters improve the perception of students towards the environment.
84.	BCom Taxation / B.com Computer Applications	COM6CR T0319	Auditing and assurance	PE/HV	The course sensitizes the students to practice ethical procedures in auditing.
85.	BCom Taxation	COM5CR T0419	Income Tax -I	HV	The course sensitizes the students to comply with the Income Tax rules and be a responsible citizen
86.	BCom Taxation	COM6CR T0519	Income Tax- II	HV	The course sensitizes the students to comply with the Income Tax rules and be a responsible citizen
87.	BCom Cooperation	COM1CR T0119	Dimensions and Methodology of Business Studies	PE	The course gives information on the role of business in society and also regarding business ethics and CSR.
88.	BCom Cooperation	COM1CR T0119	Financial Accounting 1	PE	The course imparts knowledge to prepare Financial Statement of sole traders and Individuals in the country by complying to the Indian Accounting Standards
89.	BCom Cooperation	COM1CR T0319	Business Regulatory Framework	PE	The course imparts the students to identify the basic legal framework of law related to business and Indian Contract Act.
90.	BCom Cooperation	COM1CM T0119	Banking and Insurance	HV	The course imparts knowledge in dealing with various banking services.

91.	BCom Cooperation	COM2CR T0319	Business Management	PE	The course deals with various methods and techniques of business management.
92.	BCom Cooperation	COM2CR T0219	Financial Accounting II	PE	The course imparts knowledge to prepare Financial Statement of sole traders and individuals in the country by complying to the Indian Accounting Standards
93.	BCom Cooperation	COM2CR T0219	Corporate Regulations and Administration	PE	The course deals with the legal framework for the creation and administration of a company.
94.	BCom Cooperation	COM2CM T0119	Principles of Business Decisions	HV	The course deals with economic concepts and principles for business decision making.
95.	BCom Cooperation	COM3CR T0119	Corporate Accounts - 1	PE	The course imparts knowledge to prepare the financial statement of corporates by complying to the provisions of Companies Act 2013
96.	BCom Cooperation	COM3CR T0219	Quantitative Techniques for Business I	HV	The course deals with various tools and techniques used for research
97.	BCom Cooperation	COM3CR T0319	Financial Markets and Operations	HV	The course deals with the basic concepts and functioning of Indian Financial markets.
98.	BCom Cooperation	COM3CR T0419	Marketing Management	HV	The course deals with the basics and recent trends of marketing in business and society.
99.	BCom Cooperation	COM3CR T0719	Basics of Cooperation	HV	The course give basic and general awareness about cooperation
100.	BCom Cooperation	COM4CR T0119	Corporate Accounts - II	PE	The course imparts knowledge to prepare the financial statement of corporates by complying to the provisions of Companies Act 2013
101.	BCom Cooperation	COM4CR T0219	Quantitative Techniques for Business II	HV	The course imparts knowledge about various tools and techniques used for research
102.	BCom Cooperation	COM4CR T0319	Entrepreneurship Development and Project Management	PE	The course deals with the development of entrepreneurial skills.

103.	BCom Cooperation	COM4CR T0619	Management of Cooperative Enterprises	HV	The course imparts knowledge in managing cooperative enterprises
104.	BCom Cooperation	COM5CR T0119	Cost Accounting I	PE	The course gives information regarding the elements of cost and preparation of cost sheet
105.	BCom Cooperation	COM5CR T0219	Environmental Management and Human Rights	ES	The course gives information regarding environmental issues ,concept of sustainable development and human rights
106.	BCom Cooperation	COM5CR T0319	Financial Management	PE	The course deals with various methods and techniques of financial management.
107.	BCom Cooperation	COM5CR T0619	Cooperative Legal Systems	ES	The course deals with concepts and provisions of Cooperatives
108.	BCom Cooperation	COM5CO T0119	Fundamentals of Accounting	PE	The course deals with basic concepts of accounting and preparation of final accounts.
109.	BCom Cooperation	COM6CR T0119	Cost Accounting II	PE	The course gives information regarding various methods and techniques of costing
110.	BCom Cooperation	COM6CR T0319	Auditing and Assurance	PE	The course imparts knowledge regarding basic concepts and procedure of auditing.
111.	BCom Cooperation	COM6CR T0419	Management Accounting	PE	The course deals with various techniques of management accounting
112.	BCom Cooperation	COM6CR T0719	Accounting for Cooperative Societies	PE	The course imparts knowledge regarding accounting framework of cooperatives
113.	BCom Cooperation	COM6CR T0219	Business Research	PE	The course imparts knowledge about various tools and techniques used for business research
114.	BVoc Professional Accounting and Taxation	VAT1CM T0220	Indian Financial System	PE	The course imparts knowledge about the financial system of India
115.	BVoc Professional Accounting and Taxation	VAT1CM T0320	Personal Effectiveness & Value Oriented Education	HV	The course imparts knowledge about the importance of value education

116.	BVoc Professional Accounting and Taxation	VAT1CR T0120	Financial Accounting	PE	The course equips the students with the skill of preparing accounts and financial statements of various types of business units other than corporate undertakings
117.	BVoc Professional Accounting and Taxation	VAT1CR T0220	Financial Reporting	PE	The course helps students to acquire knowledge in preparation of financial statements in accordance with statutory requirements and financial reporting
118.	BVoc Professional Accounting and Taxation	VAT1CR T0320	Tally – I	PE	The course imparts knowledge about the practical aspect of accounting.
119.	BVoc Professional Accounting and Taxation	VAT1OJT 0420	OJT – 2 weeks	HV	The course imparts knowledge about the operations of the organization, to make a general awareness of the functioning of the organization and the various role performed by the employees.
120.	BVoc Professional Accounting and Taxation	VAT2CM T0220	Computer Skills for Business	HV	The course equips the student with the basic knowledge of use of technology in Industry.
121.	BVoc Professional Accounting and Taxation	VAT2CM T0320	Business Mathematics & Statistics	PE	The course helps to develop analytical and critical thinking skills in students to prepare them to logically analyse and critically evaluate problem situation through basic mathematics.
122.	BVoc Professional Accounting and Taxation	VAT2CR T0120	Accounting and Management - Payroll and Inventory, Accounts Payable and Receivable	HV	The course provides students with an understanding of the principles, processes and methods of inventory in relation to other activities
123.	BVoc Professional Accounting and Taxation	VAT2CR T0220	E Commerce & Web Technology	PE	The course enables students to discuss E-Commerce from an enterprise point of view and think strategically about the role of IT for an organization's competitive position.
124.	BVoc Professional Accounting and Taxation	VAT2CR T0320	Internship with Project I – 4 weeks	HV	The course enables students to actively participate in the operations of the organization with an emphasis on finance and accounting and should work like any other employee of that organization

125.	BVoc Professional Accounting and Taxation	VAT3CM T0120	Research Methodology	PE	The course enables students to get a basic understanding of research methodology in changing business scenario.
126.	BVoc Professional Accounting and Taxation	VAT3CM T0220	Business Law : Company Law	PE	The course enables students to identify the principles behind law of contract, equip students to identify the validity of contracts, create awareness about various special contracts.
127.	BVoc Professional Accounting and Taxation	VAT3CM T0320	Cost and Management Accounting	PE	The course enables students to become familiar with the importance of cost ascertainment, reduction and control
128.	BVoc Professional Accounting and Taxation	VAT3CR T0120	Direct Taxation I	PE	The course enables to familiarize the students with Income Tax Act 1961 and compute income taxable under the first three heads of Income.
129.	BVoc Professional Accounting and Taxation	VAT3CR T0220	Financial Management : Analysis of Financial Statement	PE	The course enables to familiarize the students with the functional areas and principles of financial management.
130.	BVoc Professional Accounting and Taxation	VAT3CR T0320	Tally 2 with GST	PE	The course enables students to learn the concept of tally confidently.
131.	BVoc Professional Accounting and Taxation	VAT3CR T0420	OJT – 2 weeks	HV	The course enables students to participate in the operations of the organization, to give a general awareness of the functioning of the organization and the various roles performed by the employees.
132.	BVoc Professional Accounting and Taxation	VAT4CM T0120	Business Law : Insurance and Banking Regulations	PE	The course equips students with theoretical and practical knowledge of the aspects of banking and insurance in the context of new economic scenario.
133.	BVoc Professional Accounting and Taxation	VAT4CM T0220	Environmental Studies	ES	The course creates an awareness regarding natural resources, environmental aspects and management, legislations involved and also provide an awareness on Human Rights.
134.	BVoc Professional Accounting and Taxation	VAT4CM T0320	Strategic Financial Management	PE	The course enables to familiarize students with the fundamental concepts of corporate finance and the various finance functions.

135.	BVoc Professional Accounting and Taxation	VAT4CR T0120	Direct Taxation II	PE	The course helps students in understanding the determination of total income and tax payable and to get an overview regarding returns to be filed by an individual and make them expert in tax planning and tax management
136.	BVoc Professional Accounting and Taxation	VAT4CR T0220	Management Accounting – Budgeting And Forecasting	PE	The course helps students to grasp the fundamentals of budgeting and forecasting methods
137.	BVoc Professional Accounting and Taxation	VAT4CR T0320	Internship II – Organizational Study, Reporting and Viva Voce	HV	The course helps students participate in the operations of the organization, to make a general awareness of the functioning of the organization and the various role performed by the employees.
138.	BVoc Professional Accounting and Taxation	VAT5CM T0120	Business ethics & global business management	PE	The course helps students understand ethical issues in the workplace
139.	BVoc Professional Accounting and Taxation	VAT5CM T0220	Business Entrepreneurship	PE	The course helps in creating young entrepreneurs
140.	BVoc Professional Accounting and Taxation	VAT5CM T0320	Capital Markets	PE	The course familiarizes the students with capital market operations in India.
141.	BVoc Professional Accounting and Taxation	VAT5CR T0120	Auditing	PE	The course enables students to understand the duties and responsibilities of auditors and to undertake the work of auditing
142.	BVoc Professional Accounting and Taxation	VAT5CR T0220	Indirect Taxation	PE	The course makes students capable enough to handle GST areas with more ease from the purview of employability
143.	BVoc Professional Accounting and Taxation	VAT5CR T0320	Tally (Payroll & VAT)	PE	The course enables students to learn the concept of tally confidently.

144.	BVoc Professional Accounting and Taxation	VAT5OJT 0119	OJT – 2 weeks	HV	The course enables students to actively participate in the operations of the organization, to make a general awareness of the functioning of the organization and the various role performed by the employees.
145.	BVoc Professional Accounting and Taxation	VAT6CM T0120	Business Law : Securities Laws, FEMA, PMLA	PE	The course enables students to understand the legal provisions regarding securities trading, money laundering and foreign exchange
146.	BVoc Professional Accounting and Taxation	VAT6CM T0220	Corporate Readiness Program	HV	The course enables students to understand the concept and components of Business Readiness
147.	BVoc Professional Accounting and Taxation	VAT6CM T0320	HRM - Compensation Management	PE	The course enables students to understand the various dimensions of Compensation Management.
148.	BVoc Professional Accounting and Taxation	VAT6CR T0120	Business Valuation and Business Analysis	PE	The course helps students to apply the techniques and methods of valuation in real life situation
149.	BVoc Professional Accounting and Taxation	VAT6CR T0220	Management Information Systems	PE	The course enables students to understand the process of information generation and communication in organisation.
150.	BVoc Professional Accounting and Taxation	VAT6HO T0020	Internship with Project III – 8 weeks	HV	The course enables students to actively participate in the operations of the organization, to get a general awareness of the functioning of the organization and the various roles performed by the employees.
151.	BSc Computer Science	CSC5CRT 0219	IT & Environment	G/ES/ HV/PE	The course creates an awareness about the multidisciplinary nature of environmental studies and acquire detailed knowledge on natural resources such as forest, mineral, food, energy, water, land resources. It creates knowledge about the features, structure and function of a given ecosystem and provides an introduction to the value of biodiversity and its conservation, environmental pollution, social issues and also develop an awareness on IT and society-issues and concerns, cyber security, impact of IT on language.

152.	BVoc Software Development	VCS2CM T0120	Environment Science and Human Rights	ES	The course helps to develop the sense of awareness among the students about the environment and its various problems and to help the students in realizing the inter-relationship between man and environment.
153.	BVoc Software Development	VCS3CM T0220	Social Awareness	HV	The course helps to develop the ability to understand social and ethical norms for behaviour and to recognize family, institution, and community resources and supports.
154.	BVoc Software Development	VCS6CM T0220	Informatics	PE	The course will feature current research, theoretical frameworks, and case studies, that will highlight the ethical and legal practices used in computing technologies, increase the effectiveness of computing students and professionals.
155.	BVoc Software Development	VCS6CM T0120	Corporate Readiness Program	HV	The course helps give students with an essential knowledge based on behavioural dynamics of individuals with necessary models, tools, and techniques, for diagnosing, predicting.
156.	BA Economics	ECO3CR T0219	Economics of Growth & Development	G	The course details the approaches and strategies to economic growth and development emphasizing on the various aspects of physical and human capital resources. It considers the role of man power planning and the relevance of gender equality, female workforce, missing women etc.

It leads the learner to a theoretical understanding of the conditions deprived of human rights and values and the plight of women in colonised countries.
199.	BA English Literature, Communi- cation and Journalism	ENG03- ENG5CR T0417	Environment Science and Human Rights	ES	Discusses environmental issues and gives awareness for the same.

200.	BA English Literature, Communication and Journalism	ENG03-ENG5CR T0217	Literary Criticism and Theory	G, ES	Topics like feminism and Eco criticism focus on gender and environmental concerns.
201.	BA English Literature, Communication and Journalism	ENG03-ENG6CR T0217	Women's Writing	G	Traces the evolution of women writing and movements. Course delineates the voices of suppressed women
202.	BA English Literature, Communication and Journalism	ENG03-TEN5CR OP0320	English for Careers	PE	The course imparts corporate values to students
203.	BA English Literature, Communication and Journalism	ENG03-TEN1CR T0319	Writing for Media	PE	The course teaches students different types of communication and trains them to write journalistic content.
204.	BA English Literature, Communication and Journalism	ENG03-TEN2CR T0319	Editing and Fundamentals of media writing	PE	The course creates knowledge in the working of media houses and the legal aspects of press
205.	BA English Literature, Communication and Journalism	ENG03-TEN3CR T0219	Digital Writing, advertising and reporting for media	PE	The course develops ideas on different types of digital writing and laws related to it.
206.	BA English Literature, Communication and Journalism	ENG03-ENG6CR T0117	Postcolonial Literatures	G	The course discusses the double subjugation of women in a colonized country
207.	BA English Literature, Communication and Journalism	TEN2CR T0319	Interpersonal skills	PE	The course develops employability skills in students

208.	BSc Mathematics	MAT5CR T 0419	Environmental studies	ES	The course sensitizes students about the need for environmental sustainability and human rights
209.	BSc Physics	PHY5CR T0419	Environmental Physics and Human Rights	ES	The course teaches the student about different renewable energy and the importance of sustainable development.
210.	BSc Physics	PHY5CO T0119	Physics in Daly life	ES,HV	The course teaches the student about importance of electrical energy conservation and other renewable energy sources. The course teaches the student about importance energy conservation and energy conservation methods
211.	BSc Physics	PHY6CR T0119	Thermal and Statistical Physics	ES	The course helps the student to understand theory behind the technique for effective energy management.
212.	BSc Physics	PHY6CP R0119	Project	ES,HV, PE	Projects help the students to gain exposure in developing novel techniques for sustainable development. The project helps students to develop techniques for a more inclusive lifestyle. Students gains exposure towards intellectual properties, ethical standards etc.
213.	MSc Physics	PPH2CRT 0319	Thermodynamics and Statistical Mechanics	ES	The course helps the student to understand theory behind the technique for effective energy conversion and management.
214.	MSc Physics	PPH4CPR 0119:	Project/ Dissertation	ES,HV, PE	The course helps to develop novel methods for a sustainable lifestyle. The project helps students to develop novel methods for a more inclusive lifestyle. Students gain exposure towards intellectual properties, ethical standards etc.
215.	BVoc Renewable Energy	REG1CR T0120	Fundamentals of Sustainable Energy & Development	ES	The course provides knowledge about different renewable energy sources & why it is important to opt these for conserving nature.
216.	BVoc Renewable Energy	REG2CR T0120	Physico-Chemical Processes for water & waste water treatment	ES	The course creates an awareness about different physical & chemical processes used for treating water & waste water so that it can be used for other applications.

217.	BVoc Renewable Energy	REG4CM T0320	Environmental Education	ES	The course educates students about protecting the Environment, how Environmental pollution is managed, Different Environmental issues, policies & movements in India & International Efforts for Environmental Protection.
218.	BVoc Renewable Energy	REG5CM T0120	Environment, Health & Safety in Industries	PE	The course helps students to study & implement practical aspects of environmental protection & safety at work and to understand different types of safety problems happening at work places & their sustainable solutions.
219.	BVoc Renewable Energy	REG5CM T0220	Project Management	PE	The course demonstrates effective organizational leadership & skills for managing projects, project teams & stakeholders
220.	BVoc Renewable Energy	REG6CR T0120	Energy Management & Auditing	PE	The course enables students to understand the Indian Energy scenarios, energy policies, pricing & reforms, Understand the importance of implementing energy audits as part of energy efficiency & conservation exercise.
221.	MVoc Renewable Energy	PRE1CM P0220	Research Methodology	PE	The course enables students to value the importance of scientific research, to study about research design, research publication & presentation, & to improve research ethics & morals.
222.	MVoc Renewable Energy	PRE1CRT 0120	Fundamentals of Renewable Energy Technology	ES	The course provides knowledge about different renewable energy sources & why it is important to opt these for conserving nature. To introduce the latest trends in the renewable energy sector like automation.
223.	MVoc Renewable Energy	PRE2CM P0120	Energy & Environment	ES	The course enables students to study about energy resources & their exploitation, energy usage, energy conservation & energy economics
224.	MVoc Renewable Energy	PRE3CRT 0120	Energy Efficient Buildings & Systems	ES	The course enables to sensitize students about energy transfer in buildings, heat control & ventilation & introduce them to green buildings.
225.	MVoc Renewable Energy	PRE3CRT 0220	Energy Scenarios & Policies	PE	The course enables to create awareness about energy conservation, study about the Indian & Global Energy scenario & policies.

226.	MVoc Renewable Energy	PRE4CRT 0120	Energy Auditing	PE	The course highlights the importance of Energy auditing & Energy action planning, for assessing the energy performance of boilers & furnaces & study about the energy policies in India.
227.	BVoc Retail Management	VEN3CM T0120	Environment Science and Human Rights	E/HV	This course provides basic scientific knowledge and understanding of how our world works from an environmental perspective. Topics covered include: basic principles of ecosystem function; biodiversity and its conservation; human population growth; water resources and management; water, air and soil pollution; climate change; energy resources, and sustainability. The course has a required field work equal to 5 lecture hours
228.	BVoc Retail Management	VBG4CM T0220	Business Ethics & Global Business Management	PE	This course applies ethical theory and practice in the Indian context and culture. The course mentions the basic introduction to business ethics as well as the various approaches to business ethics. The functional areas of ethics as well as the management of ethics will be discussed and taught in detail
229.	BVoc Retail Management	RMG5CM T0220	Human Resource Management in Retail	PE	The course gives an introduction to Human resource management in retail. Various practices related to recruitment and selection are also discussed in detail. Various practices related to compensation management is discussed in the course. The grievance and disciplinary procedures undertaken in a retail industry are discussed and the learner will get a better understanding of how HRM practices can be done for proper functioning of a retail industry or company.
230.	MSW	PSW1CR T0119	Social Sciences for Social Work	G	The course focuses on theories related to development which includes gender dimension.
231.	MSW	PSW1CR T0219	Human Growth and Development	HV/PE	The course focuses on theories related to development which includes gender dimension.
232.	MSW	PSW1CR T0319	History, Philosophy and Fields of Social Work	PE/G/H V	The course focuses on the importance of human values and tries to professional ethics in social work practice.

233.	MSW	PSW1CR T0419	Social Work Practice with Individuals	HV/G/E S/G	The course focuses on the theories and principles of casework.
234.	MSW	PSW1CR T0519	Social Work Practice with Communities	ES/PE/ HV/G	The course focuses on the knowledge about the commune course and tries to identify the emerging trends and experiments in commune course organisation.
235.	MSW	PFL1CRP 0119	Field Practicum	PE	The course helps students to practice values and code of ethics of professional social work practice, and familiarise The course the principles of social work.
236.	MSW	PSW2CR T0119	Introduction to Abnormal and Social Psychology	PE/HV	The course focuses on human behaviour, disorders and various interventions.
237.	MSW	PSW2CR T0219	Counselling and Psychotherapy	PE/HV	The course focuses on various social case work interventions.
238.	MSW	PSW2CR T0319	Professional Skills for Social Workers	PE/HV	The course is entirely about building the practice skills of a social worker.
239.	MSW	PSW2CR T0419	Social Work Practice with Groups	PE/HV	The course focuses on theories and principles related to group work.
240.	MSW	PSW2CR T0519	Social Work Research and Statistics	PE/HV	The course focuses on scientific methods of inquiry for the study of various social phenomena.
241.	MSW	PFL2CRP 0119	Field Practicum 2	ES/PE/ HV/G	The course focuses on the structural settings/agency and the application of theoretical knowledge there.
242.	MSW	PSW3CR T0119	Planning and Implementation of Development Projects	PE/HV/ ES	The course focuses on a very systematic approach to programme planning.
243.	MSW	PSW3CR T0219	Administration of Human Service Organizations	PE/HV	The course focuses on the fundamentals human behaviour and the various disorders, and the application of counselling techniques.

244.	MSW	PFL3CRP 0319	Field Practicum 3	ES/ PE/ HV/ G	The course focuses on the structural settings/agency and the application of theoretical knowledge there.
245.	MSW	PWC3CS T0119	Rural & Urban Community Development	ES/ HV/ PE	The course focuses on the application of social work methods for rural and urban development.
246.	MSW	PWC3CS T0219	Environment and Disaster Management	ES/HV/ PE	The course tries to develop a perspective about the inter-relatedness of human life and the environment, and the application of social work in this field.
247.	MSW	PWC3CS T0319	Community Health for Development Practice	ES/HV/ PE	The course focuses on developing a concept of health and integrative approach to health in the context of development.
248.	MSW	PWF3CS T0119	Social Work Practice The course Families	G/HV/P E	The course focuses on the family as a social institution and the social work application in this field.
249.	MSW	PWF3CS T0219	Policies and Programmes for Children and Youth	G/HV/P E	The course focuses on the needs of children and youth in various circumstances and the legal provisions which exists for them.
250.	MSW	PWF3CS T0319	Population dynamics and Reproductive and Child Health	G/HV/P E	The course focuses on the family as a social institution and the social work application in this field.
251.	MSW	PWM3CS T0119	Clinical Assessment and Diagnosis of Psychiatric Disorders	PE/HV	The course focuses on the psychopathology and the related clinical aspects.
252.	MSW	PWM3CS T0219	Social Work in the Field of Health		The course focuses on health and the social work application in this field.
253.	MSW	PWM3CS T0319	Health Care Administration and Community Health	PE/HV	The course focuses on developing a concept of health and integrative approach to health in the context of development.

1.3.1

254.	MSW	PSW4CR T0119	Social Legislation and Human Rights	PE/HV/ ES	The course focuses on the Indian legal system and The courses functions as well as human rights.
255.	MSW	PSW4CR T0219	Gerontological Social Work	PE/ HV	The course focuses on the concepts and approaches of gerontology and social work application in this field.
256.	MSW	PFL4CRP 0119	Field Practicum 4	ES/ PE/ HV/ G	The course focuses on an in-depth knowledge of specialisation based field practice and the application of social work methods.
257.	MSW	PSW4CP R0119	Dissertation	ES/ PE/ HV/ G	The course focuses on building the knowledge about the steps in social work research and theories of research methodology in a systematic manner.
258.	MSW	PFL4CRP 0219	Internship (After the completion of fourth semester examination)	ES/ PE/ HV/ G	The course is the application of theoretical knowledge gained across the semesters.
259.	MSW	PWC4CS T0119	Human Resource Management for Development Practice	PE/ HV/ ES	The course focuses on the strategic issues and organisational challenges for development practice.
260.	MSW	PWC4CS T0219	Economic Development: Theory and Practice	PE/ HV/ ES	The course focuses on the various dimensions of economic development.
261.	MSW	PWF4CS T0119	Therapeutic Interventions in the field of Family and Child Welfare	G/ PE/ HV	The course focuses on developing the therapeutic skills for working The course families.
262.	MSW	PWF4CS T0219	Social Work in Education	HV/ PE	The course focuses on the application of social work methods in the field of education.

1.3.1

263.	MSW	PWM4CS T0119	Social Work Interventions in the field of mental health	HV/ PE	The course focuses on the social determinants of mental health and the application of social work interventions.
264.	BVoc Medical and Psychiatric social work	ENG1CC T0120	Basic English Skills for Social Work	PE	The course enables the student to use English fluently in their professional settings
265.	BVoc Medical and Psychiatric social work	MPS1CM T0120	Statistics	PE	The course enables the student to analyse and critically evaluate problem situation through basic mathematics
266.	BVoc Medical and Psychiatric social work	MPS1CM T0220	Introduction to Social Work	HV/ PE	The course enables the student to understand the professional ethics and values in the social work practice
267.	BVoc Medical and Psychiatric social work	MPS1CR T0120	Introduction to Medical Social Work	HV/ PE	The course enables the student to understand the fundamental concepts of hospital social work
268.	BVoc Medical and Psychiatric social work	MPS1CR T0220	Principles of Management and Hospital Administration	PE	The course enables the student to understand the general principles of hospital administration
269.	BVoc Medical and Psychiatric social work	MPS1CR P0120	Computer Skills for Social Work	PE	The course equips the student with basic knowledge of the use of technology in practice settings
270.	B. Voc Medical and Psychiatric social work	MPS1OJT 0120	OJT	HV/ PE	The course enables the student to practise theoretical knowledge in the practical settings
271.	BVoc Medical and Psychiatric social work	ENG2CC T0120	Advanced English Skills	PE	The course enhances the language competency of a social worker
272.	BVoc Medical and Psychiatric social work	MPS2CM T0120	Sociology for Social Work	G/ HV	The course deepens awareness on various aspects related to socialization and patterns of integration existing in the society

273.	BVoc Medical and Psychiatric social work	MPS2CM T0220	General psychology	HV	The course enables the student to understand the dynamics of human behaviour
274.	BVoc Medical and Psychiatric social work	MPS2CR T0120	Working with Individuals	HV/ PE	The course enables the student to understand the case work method and its application in practice
275.	BVoc Medical and Psychiatric social work	MPS2CR T0220	Medical Terminology & Procedures	HV/ PE	The course enables the student to understand and use the language of medicine
276.	BVoc Medical and Psychiatric social work	MPS2CP R0120	Internship 1	HV/ PE	The course enables the student to understand the functioning of multidisciplinary team in a medical setting and the role of social worker in the team
277.	BVoc Medical and Psychiatric social work	MPS3CM T0120	Environment Science and Human Rights	G/ ES/ HV	The course encourages the student to protect the environment and develop positive attitudes and values towards human rights and dignity
278.	BVoc Medical and Psychiatric social work	MPS3CM T0220	Developmental psychology	G/ HV	The course enables the student to critically reflect on the implications for social work practice with people at different stages of human life
279.	BVoc Medical and Psychiatric social work	MPS3CM T0320	Research Methodology	PE	The course enables the student to develop an understanding about the scientific approach to human enquiry
280.	BVoc Medical and Psychiatric social work	MPS3CR T0120	Working with Groups	HV	The course enables the student to develop group work practical knowledge and skills
281.	BVoc Medical and Psychiatric social work	MPS3CR T0220	Health Psychology	HV	The course enables the student to provide an overview of the current approaches to changing health- related behaviour

282.	BVoc Medical and Psychiatric social work	MPS3CR T0320	Counselling and Psychotherapy	HV/ PE	The course enables the student to demonstrate skills for ethical practice of counselling with different clients in various settings
283.	BVoc Medical and Psychiatric social work	MPS3OJT 0120	OJT	HV/ PE	The course enables the student in applying social work intervention techniques in medical and psychiatric settings
284.	BVoc Medical and Psychiatric social work	MPS4CM T0120	Social Entrepreneurship	HV	The course equips the students with knowledge on creativity, skills and entrepreneurial development
285.	BVoc Medical and Psychiatric social work	MPS4CM T0220	Abnormal Psychology	HV/ PE	The course enables the student to understand the fundamentals of human behaviour
286.	BVoc Medical and Psychiatric social work	MPS4CM T0320	Organization Behaviour	HV	The course enables the student to understand the implication of individual and group behaviour in organisational context
287.	BVoc Medical and Psychiatric social work	MPS4CR T0120	Project Planning & CSR	HV	The course enables the student to understand the relevance of project planning and management in different fields of Social Work and Corporate Social Responsibility
288.	BVoc Medical and Psychiatric social work	MPS4CR T0220	Working with Community and Social Action	HV/ PE	The course enables the student to develop critical perspectives and skills for participatory processes in community organization
289.	BVoc Medical and Psychiatric social work	MPS4CP R0120	Internship 2	G/ HV/ PE	The course enables the student to develop skills in intervention at individual and group level
290.	BVoc Medical and Psychiatric social work	MPS5CM T0120	Community Health	G/HV/ PE	The course enables the student to understand the policies/ services in health and implications for social work practice
291.	BVoc Medical and Psychiatric social work	MPS5CM T0220	Human Resource management	HV	The course enables the student to get an understanding of different operations in human resource management

292.	BVoc Medical and Psychiatric social work	MPS5CM T0320	Accounting for Social workers	PE	The course enables the student to prepare financial statements and learn problem solving
293.	BVoc Medical and Psychiatric social work	MPS5CR T0120	Psychosocial Rehabilitation	HV/ PE	The course enables the student to understand the role of social worker in the field of disability rehabilitation
294.	BVoc Medical and Psychiatric social work	MPS5CR T0220	Clinical Assessment and Diagnosis of Psychiatric Disorders	HV	The course enables the student to demonstrate knowledge and skills of assessment in mental health setting
295.	BVoc Medical and Psychiatric social work	MPS5CR T0320	Health Communication and First Aid	HV/ PE	The course enables the student to understand the interpersonal communication behaviours in the health care settings
296.	BVoc Medical and Psychiatric social work	MPS5OJT 0120	OJT	G/ HV/ PE	The course enables the student to demonstrate ability in assessing, intervening and working with elderly
297.	BVoc Medical and Psychiatric social work	MPS6CM T0120	Disaster Management	ES/ G/ HV/ PE	The course enables the student to understand the role of social worker in disaster management
298.	BVoc Medical and Psychiatric social work	MPS6CM T0220	Legal Framework for Hospitals & Medical Ethics	PE	The course enables the student to get thorough knowledge and familiarity on the importance of medical ethics
299.	BVoc Medical and Psychiatric social work	MPS6CM T0320	Corporate Readiness Program	PE	The course enables the student to imbibe the professional values and skills
300.	BVoc Medical and Psychiatric social work	MPS6CR T0120	Palliative care Social Work	HV/ PE	The course enables the student to develop local palliative care need assessment plan and process of the implementation
301.	BVoc Medical and Psychiatric social work	MPS6CR T0220	Psychosocial Counselling for Special Groups	HV/ PE	The course enables the student to demonstrate skills for ethical practice of counselling with different clients in various settings

302.	BVoc Medical and Psychiatric social work	MPS6CR T0320	School Mental Health and Social Work Practice	HV/ PE	The course enables the student to demonstrate skills and knowledge to work in educational settings
303.	BVoc Medical and Psychiatric social work	MPS6CR T0320	Corporate Social Responsibility(CSR)	HV/ PE	The course enables the student to assess the role of social worker in CSR activities
304.	BVoc Medical and Psychiatric social work	MPS6CP R0120	Internship 3	G/ HV/ PE	The course enables the student to practise social work methods in different settings
305.	MSc Space Science & Technology	PSP1CRT 0119	Fundamentals of Atmospheric and Space Sciences	ES	This course deals with Ozone depletion and its impacts in Module 3
306.	MSc Space Science & Technology	PSP2CRT 0119	Fundamentals of Earth Sciences and Remote Sensing	ES	This course contains topics on Sea Level rising, its impacts with reference to India
307.	MSc Space Science & Technology	PSP3CRT 0519	Atmospheric Chemistry & Atmospheric Electricity	ES	This course contains areas which are related to air pollution and anthropogenic impacts on air quality, ozone layer etc.
308.	BVoc Fitness Management and Personal Training	VBE4CM T0120	Business Economics	PE	This course provides knowledge about business techniques and how to apply those in sports field, how to have managerial and administrative quality, to know the skills for generating and utilizing the fund and to have good knowledge about the current status.
309.	BVoc Fitness Management and Personal Training	VEN3CM T0120	Environment Science and Human rights	ES/ HV	This course provides basic scientific knowledge and understanding of how the world works from an environmental perspective. Topics covered include: basic principles of ecosystem function; biodiversity and its conservation; human population growth; water resources and management; water, air and soil pollution; climate change; energy resources, and sustainability. The course has a required field work equal to 5 lecture hours

310.	BVoc Fitness Management and Personal Training	FMG3CR T0220	Client Test and Training	PE	This course teaches students how to deal with clients. It explains the physical and psychological state of the clients through health screening, examines the lifestyle diseases through questionnaire and determine the proper dietary habits.
311.	BVoc Fitness Management and Personal Training	VBE4CM T0120	Business Entrepreneur- ship	PE	This course provides knowledge about the entrepreneurship and how to apply in sports field. To apply the principles of viability and growth through a strategy plan for implementing their own business. Prepare start-ups business plans emphasizing financing marketing and organizing. Identify the new venture financing and growth financing for existing business. Evaluate formalities for setting up a small business enterprise.
312.	BVoc Fitness Management and Personal Training	FMG5CM T0120	Customer Service, Marketing and sales	PE	The course helps students to develop ability to understand about strategic framework of CRM .To gain knowledge about customer segment lifetime value, to understand about multichannel integration process and gain ability to understand about multichannel integration process.
313.	BVoc Fitness Management and Personal Training	VCR6CM T0120	Corporate Readiness Program	PE	This course provides skills and knowledge required in the contemporary work place. To identify skills and knowledge required in the contemporary work place. Apply the skills of teamwork and leadership to enable effective responses when working with others. To develop professionalism and confidence. To develop professionalism and confidence
314.	BVoc Sports Nutrition and Physio-therapy	ENG1CC T0120	Basic English Skills	PE	The course enables the students to communicate efficiently in their professional settings
315.	BVoc Sports Nutrition and Physio-therapy	SNP1CM T0120	Basic Nutrition	G	The course enables the student to understand the basic nutrients in food and their role in maintaining nutritional status
316.	BVoc Sports Nutrition and Physio-therapy	SNP1CM T0220	General Psychology	HV	The course enables the student to develop an insight on the basic mechanism of mental process
317.	BVoc Sports Nutrition and Physio-therapy	SNP1CRT 0120	Human Physiology	G	The course enables the student to understand the physiological functions and functions of our body

318.	BVoc Sports Nutrition and Physio-therapy	SNP1CRT 0220	Human Anatomy	G	The course enables the student to learn the anatomical functions and mechanism of our body
319.	BVoc Sports Nutrition and Physio-therapy	SNP1CRP 0120	Computer Skills	PE	The course equips the student with the basic knowledge on computer skills and techniques
320.	BVoc Sports Nutrition and Physio-therapy	SNP1OJT 0120	OJT	PE	The course enables the student to perform in a professional setting
321.	BVoc Sports Nutrition and Physio-therapy	ENG2CC T0120	Advanced English Skills	PE/ G	The course enables the student to develop proficiency in English language
322.	BVoc Sports Nutrition and Physio-therapy	SNP2CM T0120	Food Microbiology	G	The course enables students to understand the various microorganism related with food in terms of preservation, spoilage and infections
323.	BVoc Sports Nutrition and Physio-therapy	SNP2CM T0220	Nutritional Biochemistry	G	The course enables the student to learn the biochemical aspects related with food and nutrients
324.	BVoc Sports Nutrition and Physio-therapy	SNP2CRT 0120	Sports and Exercise Therapy	PE	The course enables the student to develop insight on various exercise techniques and its application
325.	BVoc Sports Nutrition and Physio-therapy	SNP2CRT 0220	Orientation to Sports Physiotherapy	PE	The course enables the student to learn the process involved in sports medicine, sports injuries and sports physiotherapy
326.	BVoc Sports Nutrition and Physio-therapy	SNP2CPR 0120	Internship 1	PE	The course enables the student to learn how to perform in professional settings
327.	BVoc Sports Nutrition and Physio-therapy	SNP3CM T0120	Environment Science and Human Rights	G/ ES/ HV	The course enables the student to understand the multidisciplinary aspects of environmental studies and develop values related with human rights

328.	BVoc Sports Nutrition and Physio-therapy	SNP3CM T0220	Clinical Orthopaedics & Sports Medicine -I	PE	The course enables the student to acquire knowledge on clinical aspects of various medical conditions related to sports medicine
329.	BVoc Sports Nutrition and Physio-therapy	SNP3CM T0320	Scientific Principles and Practices of Health and Fitness Training	PE	The course enables the student to learn the principles of health and fitness training
330.	BVoc Sports Nutrition and Physio-therapy	SNP3CRT 0120	First Aid and Nursing	G/ PE/ HV	The course enables the student to develop skills in imparting first-aid for various medical urgencies
331.	BVoc Sports Nutrition and Physio-therapy	SNP3CRT 0220	Electrotherapy	G/ PE	The course enables the student to learn the uses of various electrotherapeutic modalities
332.	BVoc Sports Nutrition and Physio-therapy	SNP3CRT 0320	Physiology of Sports and Exercise	PE	The course enables the student to understand physiology related with exercise
333.	BVoc Sports Nutrition and Physio-therapy	SNP3OJT 0120	OJT	PE	The course enables the student to learn professional ethics and develop professional skills
334.	BVoc Sports Nutrition and Physio-therapy	SNP4CM T0120	Research Methodology and Statistics	PE	The course enables the student to develop insight in research methods and its applications
335.	BVoc Sports Nutrition and Physio-therapy	SNP4CM T0220	Abnormal Psychology	HV/ PE	The course enables the student to understand the components of normal and abnormal behaviour
336.	BVoc Sports Nutrition and Physio-therapy	SNP4CM T0320	Sports Psychology and Counselling	HV/ PE	The course enables the student to develop insight on human behaviour in context of sports and fitness
337.	BVoc Sports Nutrition and Physio-therapy	SNP4CRT 0120	Physiotherapy in Orthopaedics and Sports Medicine	G/ PE	The course enables the student to learn the application of physiotherapy in sports medicine

338.	BVoc Sports Nutrition and Physio-therapy	SNP4CRT 0220	Family Meal management	G/PE	The course enables the student to learn to plan and develop balanced meals for various age groups in normal setting
339.	BVoc Sports Nutrition and Physio-therapy	SNP4CPR 0120	Internship 2 – Organizational Study, Reporting and Viva Voce	G/PE	The course equips students to perform professionally
340.	BVoc Sports Nutrition and Physio-therapy	SNP5CM T0120	Clinical Orthopaedics and Sports Medicine II	G/PE	The course enables the student to develop insight on clinical aspects of various medical condition related with sports medicine
341.	BVoc Sports Nutrition and Physio-therapy	SNP5CM T0220	Biomechanics	PE	The course equips students with the concepts of biomechanics, kinematics and kinetics
342.	BVoc Sports Nutrition and Physio-therapy	SNP5CM T0320	Alternative Medicine	G/PE	The course enables the student to develop knowledge of alternative medicine and yoga therapy in health and fitness
343.	BVoc Sports Nutrition and Physio-therapy	SNP5CRT 0120	Medical Instrumentation and Hospital Visit	PE	The course enables the student learn and apply the use of technology in medical instruments
344.	BVoc Sports Nutrition and Physio-therapy	SNP5CRT 0220	Therapeutic Nutrition	G/PE	The course equips students with the knowledge of diet therapy in the management of various diseases
345.	BVoc Sports Nutrition and Physio-therapy	SNP5CRT 0320	Physiotherapy in Neurology and Neuro Surgery	G/PE	The course enables the student to develop insight on neuro-muscular diseases and its management
346.	BVoc Sports Nutrition and Physio-therapy	SNP5OJT 0120	OJT	PE	The course enables the student to learn to perform in professional setting
347.	BVoc Sports Nutrition and Physio-therapy	SNP6CM T0120	Corporate Readiness Programme	PE	The course enables the students to adapt to the professional world

1.3.1

348.	BVoc Sports Nutrition and Physio-therapy	SNP6CM T0220	Weight Management, Rehabilitation, and Fitness	G/ PE	The course enables the student to learn to apply the knowledge of diet and exercise in weight management
349.	BVoc Sports Nutrition and Physio-therapy	SNP6CM T0320	Sports Nutrition	G/ PE	The course enables the student to develop insight on nutritional needs of sportspersons
350.	BVoc Sports Nutrition and Physio-therapy	SNP6CRT 0120	Physiotherapy in General Medicine and Surgery including cardiothoracic Conditions	G/ PE	The course enables students to apply basic physiotherapeutic techniques for medical conditions
351.	BVoc Sports Nutrition and Physio-therapy	SNP6CBT 0120	Evidence Based Physiotherapy	G/PE	The course enables the student to learn and apply recent advances in physiotherapy
352.	B Voc Sports Nutrition and Physio-therapy	SNP6CBT 0220	Public nutrition	G/ PE/ HV	The course enables the student understand the nutritional needs and nutritional problems of the community
353.	BVoc Sports Nutrition and Physio-therapy	SNP6CBT 0320	Clinical nutrition	G/PE	The course enables the student to develop knowledge on various therapeutic conditions requiring dietary attention
354.	BVoc Sports Nutrition and Physio-therapy	SNP6CBT 0420	Food toxicology	G/ PE	The course enables the student to develop an understanding towards the toxicology related with food
355.	BVoc Sports Nutrition and Physio-therapy	SNP6CPR 0120	Internship with Project-III	PE	The course enables the student to learn and develop research and innovation skills in the related field
356.	BVoc Travel and Tourism Management	VEN3CM T0120	Environmental Science and Human rights	E/ HV	This course gives an understanding of natural and social systems that can be applied to environmental and natural resource problem solving in a management context. It also will give an overview of the complexity of ecosystem and the relationship between human and environment

357.	B.Sc. Zoology	ZOO4CR TO119	Research methodology, Biophysics and Biostatistics	HV/ PE	This course include Bioethics, Animal Protection Laws, Use of animal in research and education - ethical issues related to it, Working with humans- consent, harm and risk elements involved in it, with special reference to children, vulnerable people and regarding equality.
358.	BSc Zoology	ZOO5CR T0119	Environmental Biology and Human Rights	ES/ HV	This course includes modules on environmental challenges, waste disposal problems, Natural disasters and their mitigation measures and environmental toxicology. Focuses on Human rights and related issues.
359.	BSc Zoology	ZOO5CR T0219	Cell Biology and Genetics	HV	This course provides insight into Eugenics and Euthenics. Makes the students aware of bio war and bio piracy.
360.	BSc Zoology	ZOO6CR T0319	Molecular Biology, Biotechnology and Bioinformatics	PE	This course makes the students aware of ethical issues related to genetically modified organisms, their applications and potential hazards.
361.	BSc Zoology	ZOO5CO T0519	Public Health and Nutrition	HV	This course offers information regarding life skills, dimensions of health and community health programmes
362.	MSc Zoology	PZO1CRT 0419	Biostatistics and Research Methodology	PE	This course provides an insight on analytical and critical thinking skills through problem solving, IPR, Bioethics and laws.
363.	MSc Zoology	PZO2CRT 0119	Field Ecology	ES	This course offers information on conservation of nature and environmental sustainability, Energy conservation and helps to learn current environmental issues based on ecological principles
364.	MSc Zoology	PZO2CRT 0219	Developmental Biology	PE/ HV	This course gives insight on human welfare and developmental biology, includes a module on stem cells, their applications and ethical issues
365.	MSc Zoology	PZO2CRT 0419	Microbiology and Biotechnology	PE/ ES/ HV	This course includes modules on biotechnology in health care, environment, awareness on biological weapons, bio-terrorism, intellectual property rights, biosafety and bio ethics
366.	MSc Zoology	PZO4CRT 0319	Clinical Microbiology	PE	This course gives an outline of good lab practices, WHO safe code of practise in clinical microbiology laboratory, legal requirements and ethics in handling experimental animals.
