

PLASTIC FREE CAMPUS

Plastic Free Campus is an initiative to inspire students and faculty to replace single-use plastic bags/bottles/containers with more sustainable options. The college insists upon maintaining an environment that is free of toxic plastics, be it in general campus settings or in classrooms. Students and the teaching and non-teaching staff members are encouraged to bring steel bottles, lunch carriers and reusable bags for all purposes. A notable change is the shift to reusable cloth banners, replacing traditional plastic banners which often times lie around, contributing to a mounting collection of non-biodegradable waste. 43 students have taken the initiative to ensure a plastic free campus.
